

Guided by Vision. Powered by Intelligence.

DELPHIQ is a Maryland-based technology firm specializing in federal IT modernization and mission enablement. The company helps partners anticipate challenges, adapt to change, and achieve mission outcomes through secure, forward-thinking technology.

Core Competencies

- Agile Software Development & Service Delivery
- IT Modernization & Cloud Migration (AWS, Azure, GCP)
- Enterprise Architecture & Infrastructure Support
- Cybersecurity Compliance (FISMA, FedRAMP, NIST 800-53)
- Program & Project Management (PMP-Certified Leadership)

Differentiators

- Proven expertise delivering modernization and mission-critical solutions across the federal landscape, combining strategic insight, disciplined execution, and measurable results.
- Demonstrated success leading enterprise-wide transformation initiatives for federal legislative and executive clients.
- Leadership defined by strategy, execution, and measurable impact.
- Integrated approach that unites program management, technology innovation, and workforce enablement.
- Scalable partner ecosystem built on transparency, agility, and performance-based collaboration.
